ALGEE, the Mental Health First Aid Action Plan

- Assess for risk of suicide or harm*
- Listen nonjudgmentally*
- Give reassurance and information*
- Encourage appropriate professional help*
- Encourage self-help and other support strategies*

"This project was supported in whole or part, from state and federal funds received from the Division of Behavioral Health of the Nebraska Department of Health and Human Services."

Sometimes, first aid isn't
a **bandage**,
or **CPR**,
or the **Heimlich**,
or calling **911**.

Sometimes, first aid is **YOU!**

Someone you know could be experiencing
a mental illness or crisis. You can help them.

You are more likely to encounter someone — friend, family member, coworker, neighbor, or member of the community — in an emotional or mental crisis than someone having a heart attack. Mental Health First Aid teaches a 5-step action plan to offer initial help to people with the signs and symptoms of a mental illness or in a crisis, and connect them with the appropriate professional, peer, social, or self help care. Anyone can take the 8-hour Mental Health First Aid course — first responders, students, teachers, leaders of faith communities, human resources professionals, and caring citizens.

Sometimes, the best first aid is you.
Take the course, save a life, strengthen
your community.
